RE: Homewood Municipal Building Lift Installation

Dear Mr. Oehrlein,

I appreciate the professional manner in which the Homewood Municipal Building wheelchair lift installation was handled. The local licensed installer you selected did a competent, workmanlike job.

The communication was clear, the delivery occurred as scheduled, and the installation went smoothly.

I would recommend LIFT-U Division of Hogan Mfg to anyone needing to solve an accessibility problem with a wheelchair lift.

Sincerely,

Allen Swinney
Project Manager
